

Steps to Automate Your Attendance in AEC portal

Step1: First of all, make sure you install python 3.10 or above.

Step2: Set python to system environmental variables.

Step3: Open cmd and enter “**pip install selenium**”.

Step4: Create a new folder named “**WebDrivers**” in C:\ Drive.

Step5: Paste the path of that folder in to system environmental variables (C:\WebDrivers\).

Step6: Paste the **Chromedriver** application (give with along this zip file) in WebDrivers folder.

Step7: To check Chromedriver is installed correctly go to cmd type “Chromedriver” it starts if it is placed correctly.

Step8: Now open “**Attendance_Automation_Code.py**” file (give with along this zip file) in any editor or notepad. And change the **USERNAME** and **PASSWORD** fields with yours.

Step9: Run the “Attendance_Automation_Code.py” in any python compiler. Or type “**python Attendance_Automation_Code.py**” in cmd to run.

Step10: It will Automatically redirect to your Attendance page and show overall attendance followed by today’s attendance.

Step11: Now go to Desktop right click -> new->shortcut->” SET YOUR Attendance_Automation_Code.py file PATH“->next-> give name to shortcut->finish.

Step12: right click on your shortcut ->properties->change Icon and select your favorite icon.
